She is one of the best grammar professors that I ever had. ^(English)

She understands the needs or difficulties of bilingual students. She is very respectful and treats everyone fairly.

Very knowledgeable on the English subject.

Professor Graves was wonderful. This is a highly technical course, at times, and she was able to explain abstract concepts with ease. My interest in linguistics has grown by leaps because of this course, and it is all due to Professor Graves.

I have decided to take this class in order to gain a better understanding of how English language works in general. It has exceeded my expectations both in the quality and content of lectures. Prof. Graves is one of the best organized and clear communicating teachers I have worked with. Highly recommended for all interested in language.

Her enthusiasm for the subject
is infectious.
Very well organized.
